

1st TMN mini-symposium

Electrophysiology to characterize functional neuronal networks in translational medicine

Save the date!

Friday, 3rd February 2023 (morning)

9:00-9:45 am

Nael Nadif Kasri (online)

Radboud University Medical Centre, Nijmegen, The Netherlands
« *Leveraging human neuronal networks on micro-electrode arrays to study disease-specific genotype-phenotype correlations* »

9:50-10:35 am

Alberto Bacci

ICM Institute, Paris, France
« *Over-inhibition of prefrontal cortical circuits in Down syndrome* »

Coffee break

11:00-11:45 am

Ulrich Egert

Faculty of Engineering and Berstein Center, Freiburg, Germany
« *Fundamentals of electrophysiology and microelectrode array recording* »

Lunch

Location: IGBMC, 1 rue Laurent Fries, Illkirch-Graffenstaden

Upcoming TMN mini-symposiums
Clarification and imagery, iPSC-Organoids, genetics in human disorders
