NEUROPSYCHIATRY

WEBINAR+ CASE DISCUSSION

27th July 2023

9:00-10:30AM London GMT+1

WEBINAR + CASE DISCUSSION

SECONDARY OBSESSIVE COMPULSIVE SYNDROMES

CASE DISCUSSION

Prof. Dr. Dominique Endres

Presenter

Prof. Dr. Dominique Endres is a Clinician Scientist. He works in Germany at the University Medical Center Freiburg in the Department of Psychiatry and Psychotherapy. His research focuses on clinical immunopsychiatry. In his talk, he will address “autoimmune and other organic causes of obsessive-compulsive disorder.”

Prof. Ludger Tebartz van Elst

Chairman

Ludger Tebartz van Elst is Professor for Psychiatry and Psychotherapy at the University Hospital Freiburg, deputy director of the clinic for psychiatry and head of the section for experimental neuropsychiatry. He has founded and developed the field of neuropsychiatric research at the university clinic Freiburg and is head of the section for neuropsychiatry of the German Association for Psychiatry, Psychotherapy, Psychosomatics and Nervous Disorders (DGPPN). He has published more than 260 peer reviewed papers and written or edited 9 monographies/books and numerous book chapters in the field.
